Project portfolio

With reaching one year of experience in industry as a backend developer, currently working as a full-time core backend developer remotely at Secomind.ai. As a Jr. developer created robust, reusable, scable and high perfomance components for feature completion, Besides that, I am keen in self-learning, and applying new concepts into the project tasks and keep exploring new technologies.

WORK EXPERIENCE

Swoop Cart Technologies Backend Developer <ul style="list-style-type: none">Developed and maintained all the server-side network componentsEnsured optimal performance of the central databaseKeeping in check the responsiveness of the database to the front-end requests. https://www.swoopcart.com/	(February 13, 2022 - June 15, 2022)	SecoMind AI Jr. Backend Developer <ul style="list-style-type: none">Managing backend mutations for all the front-end featuresIntegrating the frontend with the backendDesigning the database schema using MongoDBUser authentication both OAuth and cookies based. https://secomind.ai/	(March 16, 2022 - Present)
